Projects

ACE Manufacturing Bootcamp

- Completed America's Cutting-Edge training in CNC machining and CAM programming using Fusion 360 and Mastercam
- Produced precision-machined components while applying mechanical design principles, tolerance analysis and hands-on problem solving
- Designed and assembled an air-powered piston utilizing a piston cylinder mechanism for an assembly challenge using Fusion 360

Airplane Performance Project

- Collaborated with a team to design and develop a program that evaluates propeller/engine driven aircraft performance like thrust, power, and efficiency
- Implemented MATLAB-based graphing and analysis tools to visualize aircraft performance

Skills

- Engineering Analysis Tools: MATLAB, Fusion 360, SolidWorks, Mastercam
- Aerospace & Mechanical Systems: Compressible flow analysis, Structural analysis, CNC machining, Mechanical system design, Thermodynamics
- Applied Engineering: Energy cycle analysis, Workflow optimization, Efficiency Analysis

Education

The University of Tennessee, Knoxville

Bachelor of Science in Aerospace Engineering
Engineering Management Minor

Knoxville, Tennessee
May 2027

School Experience

Anderson Center for Entrepreneurship and Innovation

Ambassador

Knoxville, Tennessee
February 2025 – Present

- Delivered presentations to 30+ high school students on the fundamentals of entrepreneurship and techniques to begin their entrepreneurial journey
- Participated in speaker events to learn from industry professionals and entrepreneurs
- Worked with other ambassadors to create innovative strategies to promote ACEI interest

Society of Manufacturing Engineers

Member

Knoxville, Tennessee
August 2025 – Present

- Participated in workshops, guest lectures, and technical sessions to broaden knowledge of manufacturing and automotive technologies
- Applied Fusion360 and Mastercam skills during SME workshops and technical sessions to strengthen knowledge of CNC machining and manufacturing processes

Work Experience

Outback Steakhouse

Server

Knoxville, Tennessee
June 2024 – August 2024

- Delivered attentive customer service by resolving issues promptly to maintain satisfaction
- Assembled food items per company standards, ensuring accuracy and quality for every order
- Collaborated with a 6–8 person team to streamline food service during peak hours
